

New Concept ECR

ER - 600/600R

Space-saving, Truly Customizable
Electronic Cash Register

ER-600/600R

Best Functions

Network Printing

Each ER-600/600R can print with one KP (Kitchen Printer)

Shared Table Tracking

A clerk can handle any table from any connected ECR.

Customizable feature in choice of printers

Built-in MCR(Magnetic Card Reader)

MCR is available for clerk management.

Excellent Features

Easy Programming

With a maximum of 16Mbits of memory, you can arrange PLUs(Price Look-Up) and Departments to meet your store environment.

Up to 5 Prices per product

3 Levels of grouping

Order Printing & Bill Printing

Free key Programming (Allocation of function keys)

Mix & Match

If you have special promotions, this function can be useful. You can introduce a discount if a customer chooses several items from among the designated item category.

Clerk Interrupt

Different operators are allowed to record rounds of drinks at various stages. Each operator can enter and add to check or tables in a restaurant.

ER-600/600R allows you to maximize flexibility in all types of store environments while enjoying increased cash flow.

ER-600/600R is created for special markets such as movie-theaters, snack bars, kiosk carts, gift shops, outdoor markets, amusement parks, and cafeterias. This solution provides you easy programming, connectivity to peripherals, and an effective system of networked printers in order to meet your store requirements. In addition to that, this new concept ECR(Electronic Cash Register) has a space-saving modular design.

Multi line LCD

Keyboard Layout Raised KBD(ER-600R)

Flat KBD(ER-600)

ER-600/600R

Space-saving, Truly Customizable Electronic Cash Register

All the features you need
